

RESUME

Senior software engineer for AI workflows, web platforms, and durable systems.

This page is written for engineering leaders doing a quick diligence pass. It keeps the signal high: scope, outcomes, stack judgment, and the kinds of systems I like owning.

[Review case studies](#)[Start a conversation](#)

BASED IN

Canada

CURRENT LANE

Senior software engineering

FOCUS

AI workflows, web platforms, system design

AUDIENCE

Engineering leaders, teams, founders

EXPERIENCE

Roles with outcomes attached.

Work history trimmed toward delivery signal, not keyword density.

Jul 2025 - Present

Remote

Senior Software Engineer

Tundra Technical Solutions

Driving enterprise software and AI delivery where teams need usable systems, not demo-only prototypes.

Lead architecture and delivery of enterprise software and AI agent workflows for a major Ontario energy client.

Build LLM-powered systems — RAG, MCP tools, agentic pipelines — focused on maintainability and operational fit.

Coach teams on secure, durable engineering practices.

Jan 2023 - Jun 2025

Oakville, ON, Canada

Senior Software Consultant

BDO Canada LLP

Built internal and client-facing platforms across AI, automation, and secure application delivery.

Delivered AI dashboards and chatbots with Azure, OpenAI, Node.js, TypeScript, and PostgreSQL.

Improved workflow efficiency by 30% and reduced vulnerabilities by 35%.

Worked across teams and clients including OPG, GreenShield Canada, and BDO USA.

Jan 2020 - Dec 2021

Bangalore, India

Full Stack Developer

Nuclei

Worked on product engineering, application structure, security posture, and analytics infrastructure.

Built scalable product features with React, Node.js, SQL, and AWS.

Reduced vulnerabilities by 40% through stronger data handling and secure practices.

Helped drive UX and platform improvements tied to retention growth.

Dec 2018 - May 2020

Bangalore, India

DSC Lead Intern

Google

Focused on developer education, workshops, and community leadership at scale.

Mentored 1,500+ developers in web engineering and system design topics.

Supported 200+ job placements through teaching and coaching.

Organized DevFest events and hands-on learning programs.

SKILLS

Tools I actually use to ship.

Languages

TypeScript · JavaScript · Python ·
Java · Go · SQL

Frontend and app

React · Next.js · Astro · React Native ·
Tailwind CSS

Backend and platforms

Node.js · NestJS · PostgreSQL ·
Redis · REST APIs · Microservices

Cloud and delivery

Azure · AWS · Cloudflare · Docker ·
Kubernetes · Terraform

EDUCATION

Formal training, kept compact.

Master of Applied Computing

University of Windsor

Windsor, ON, Canada · 2022 - 2023

Bachelor of Engineering in Information Science and Engineering

Ramaiah Institute of Technology

Bangalore, India · 2016 - 2020

RECOGNITION

Signals beyond job titles.

Microsoft Certified: Azure AI Engineer Associate

Credential ID: A7694B155AFA9F38

Polygon Hackathon Winner

\$10,000 prize for Divvy in 2021.

Smart India Hackathon Winner

Recognized in 2018 for product execution and delivery.

Golden Recognition Award, BDO Canada

Awarded for strong performance and delivery impact.
